CFM A17 EXPLOSION PROOF VACUUM

CFM A17 Explosion Proof Vacuum

The CFM A17 Explosion Proof Vacuum is a stainless steel, pneumatic explosion proof vacuum cleaner approved for use in hazardous areas Class I, Group D and Class II, Groups F & G. The CFM A17 Explosion Proof Vacuum is ideal for a variety of general cleaning tasks, including heavy duty applications involving heavier types of debris. Since the CFM A17 Explosion Proof Vacuum is pneumatic, with no moving parts, it can be used in continuous duty applications with few maintenance costs.

Features and Benefits

- Powered by compressed air for use where electricity is unavailable or undesirable
- All stainless steel construction including container, filter chamber and trolley
- Anti-Static wheels mounted on two rigid castors and two swivel locking castors for easy maneuverability
- Static grounding wire to ensure a high level of conductivity for static dissipation
- Unique air exhaust diffuser to control airstream
- Optional HEPA filtration ensures 99.97% of particles are retained, down to and including 0.3 microns
- Anti-static filter with 21 square feet of surface area guarantees high filtration efficiency and prevents premature clogging
- External manual filter shaker keeps the main filter free of clogging dust and maintains the vacuum's maximum suction power and filtration capabilities

Options and Accessories

- Please contact our Customer Service Department for a full list of accessories specifically designed for use in explosion hazardous areas.

CFM A17 EXPLOSION PROOF VACUUM

Specifications for the CFM A17 Explosion Proof Vacuum Vacuum

Data	Units	A17
Air consumption @ 90 psi	cfm	56
Waterlift, max. @ 90 psi	inches H ₂ O	177
Airflow, max. @ 90 psi with 56 cfm of supply air	cfm	240
Filter area, main filter	sq. ft.	21
Filter area, HEPA filter	sq. ft.	60.2
Machine inlet	mm	70
Tank capacity	gallons	26
Dimensions (l x w x h)	inches	34 x 27 x 54
Weight	pounds	150
Airline, diameter	inches	1/2
Airline, length	feet	20
