

# The practical vacuum from the global leader

There are two aspects of accessories that are really important: range and availability. Nilfisk-Advance focus on working with professional cleaners to find out which tools they really need, meaning that the range is always right with a smart mix of nozzles, filters and bags.

Being a global leader means that wherever you are, the right accessories are never far away.

Commercial Vacuum Cleaner

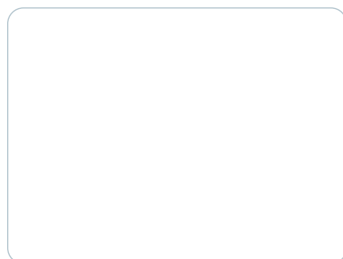

Nilfisk GD 910

# Basic

# perfection

# The light professional vacuum that makes sense

## THE QUALITY SHOWS THROUGH

The GD 910 represents yet another new standard in commercial vacuuming from Nilfisk-Advance.

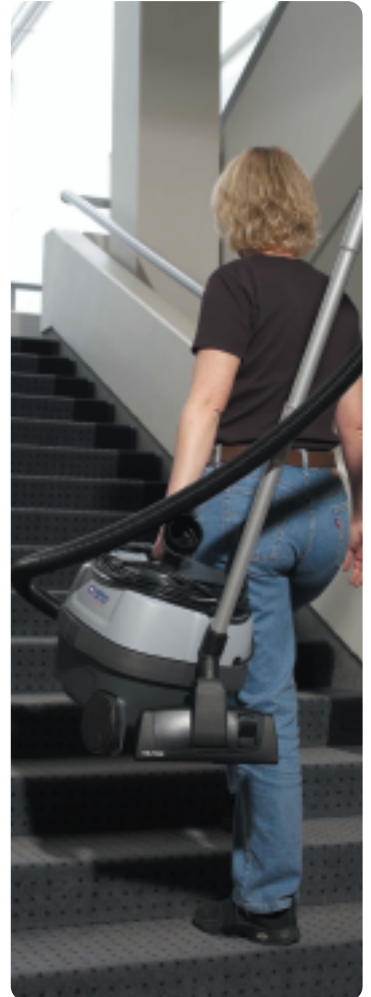

When the task is cleaning in a hotel, office or as a contract cleaner, the GD 910 is the compact, light-weight and efficient answer to your needs.

The GD 910 combines practical efficiency with cost-effective value.

The quality always shows through, even when the price is less. A simple, well-designed vacuum cleaner that gives the user the right tool for everyday cleaning in a variety of applications.

# Always a step ahead

- User-friendly, time saving cord storage allows it to be taken off in one move without unravelling.
- Nozzles for a variety of specialized jobs, all with a convenient onboard storage location.
- Large capacity dust bag with excellent filling efficiency.
- Efficient sack filter means that the vacuum can also be used without a dust bag.
- Low sound level allows cleaning during working hours.

The compact design means that the GD 910 can be easily stored or transported, even when space is limited.

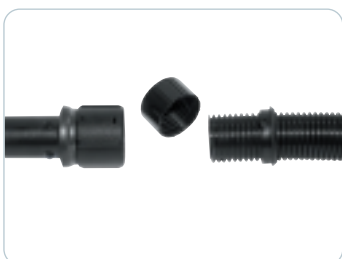

Everything has its place. This means really handy parking between cleaning.

Built-in storage for nozzles allow all the tools you need to be within easy reach at all times.

With or without dustbag - it's your choice. The inner sack filter is attached to the top part so it's automatically inserted to ensure that bagless cleaning is always adequately filtered.

Cut & Fix hose means - easy to repair the hose

Cord storage is simple but functional. To save time the cord can be removed in one go rather than unravelling it.
