The practical solution to wet and dry vacuuming challenges

Large capacity tanks increase time for actual cleaning, decrease time spent on emptying

Rugged polyethylene body is designed to act as a bumper and resist harsh chemicals

Straightforward controls require minimum training

High suction power combined with a low noise level gives impressive performance and permits use anywhere, anytime

Your challenge:

Remove spilled fluids as quickly and effectively as possible.

The WD approach:

High-suction pick up, with a large-capacity tank that can be emptied quickly, comfortably and easily.

Your challenge:

Move equipment from one job to the next.

The WD approach:

A lightweight, compact design featuring two fixed and two swivelled wheels for excellent manoeuvrability.

These are just a couple of examples of how the WD wet/dry vacuum cleaners take on everyday challenges with plain and simple solutions.

The WD machines were created after a thorough analysis of the tasks the cleaning professional performs day in and day out. What features will help you clean faster? Smarter? More easily? Once we answered questions like these, we came up with the professional's choice for wet and dry vacuum cleaning: the WD series.

WD 215

15 litre actual liquid collection capacity

Weighs 10 kg

Empty tank by tipping

WD 225

25 litre actual liquid collection capacity

Weighs 11 kg

Empty tank by tipping

WD 245

45 litre actual liquid collection capacity

Weighs 19 kg

Empty tank via drain hose or by tipping

WD 260

60 litre actual liquid collection capacity

Weighs 21 kg

Empty tank via drain hose or by tipping

Effective performance

A 38 mm diameter suction hose facilitates high airflow and allows the user to pick up large debris.

Excellent filtration

Filters are never in contact with water, so they're easy to clean and odour-free. An optional HEPA filter is also available.

Ergonomic design

An ergonomically designed carrying handle, right- or left-handed "tip handles" for tank emptying and an adjustable trolley handle (WD 245, 260) ensure operator efficiency and comfort.

Quick emptying

Empty the tank easily and ergonomically via a drain hose (WD 245, 260) or by tipping (all models).

Accessories

A range of accessories helps you maximise the performance of your WD vacuum cleaner. Choose from the following to tailor the machine to your specific tasks.

Front nozzle

Wet nozzle

Brush nozzle

Crevice nozzle

Accessory basket

Dust bag

Technical specifications

Description	Unit	WD 215	WD 225	WD 245	WD 260
